

## TECHNOLOGY

# RangeWidget™

## OVERVIEW

RangeWidget™ is used to select a range of discrete values similar to the OST Motif XmScale and Xm ScrollBar widgets, but provides selection of a range of values instead of just a single value. A range of values consists of a set of a lower and an upper value within minimum and maximum values.

For more information, contact the Office of Technology Commercialization, 301-405-3947 or [otc@umd.edu](mailto:otc@umd.edu).
