

TECHNOLOGY

JEF-f1 Fall Bearing Red Raspberry (Josephine)

OVERVIEW

Fall bearing red raspberry plant.

It is productive but later in the season than all of the cultivars known to us to be presently in use. This characteristic makes it suitable for completing the season in California, the Mid Atlantic States and in the southern Mid West. As this cultivar was tested as a primocane bearer, meaning all overwintering canes were removed, no claim is made regarding its cold hardiness or chilling requirement.

Non-exclusive licenses are available. Contact 301 405-3947 or by e-mail - otc@umd.edu.
